

Franken-Fish Puppet

You'll need: Crayons, scissors,
and glue

1. Color the fish puppet.
(You don't need to color the gray areas. They will be folded inside the fish.)
2. Cut out the fish puppet on the solid black lines.
(Don't forget to cut the slits between the gray parts.)
3. Fold back each dotted line on the fish's scaly body to form a rectangular box. Unfold it.
4. Fold back the four long strips on the dotted lines.
5. Glue the tab and attach it to form the rectangular body.
6. Fold up each fin on the dotted lines.
7. Pull back on the top and bottom fin to make the fish talk.
