

IT'S AN INSECT BOX

You'll need: Markers, scissors, glue

1. Decorate the insect box.
2. Cut out the insect box. (Make sure you cut the slit under each wing and the triangle slits on the left and right flaps.)
3. Fold the box back on each dotted line. Use the triangle slits to connect the flaps. Use the line slits to connect the wings.
4. Cut out the insect body. Fold up on the dotted line. (You can cut two paper scraps to make antennae.)
5. Set the body on top of the box.

Open the box and put a prize inside. Give it to a friend.
