

LITTLE LANTERNS

You'll need: Scissors, stapler, crayons

1. Cut out both large rectangles. Use crayons to decorate the lantern and handle.
2. Cut the handle (paper strip) off the rectangle.
3. Fold the rectangle in half on the dotted line. Cut the slits. (Be careful not to cut all the way to the other side.)
4. Unfold. Curve the rectangle into a cylinder shape; overlap to cover the word, "TAB," and staple the top and bottom to hold. Staple the handle to the top of each side.
