

QUILT CUBE

You'll need: This pattern (printed on cardstock paper), scissors, crayons, watercolors, glue, 11" piece of ribbon

1. Use crayons to draw patterns or designs on the 3 blank squares across the top and on the bottom middle square. (Don't color the "glue" squares.)
2. Cut out the cube pattern on the dark black line. Cut all four slits.
3. Fold on the dotted lines to form the cube. Unfold and lay it flat.
4. Spread glue on the sections that have the word glue. Refold the cube. Press and hold the glued tabs.
5. Glue a ribbon around the top of the cube.

*Use your quilt cube to store crayons, markers, or other small items.
