

YETI-COPTER

You'll need:
Scissors, crayons,
and a paperclip.

1. Color a yeti-copter rectangle.
2. Cut out the rectangle.
3. Cut the slit between the propellers.
4. Fold one propeller forward and one backward.
5. Cut the slit below each hand. Fold each side back on the dotted line.
6. Fold the bottom of the copter up on the dotted line.
7. Attach a paperclip to the bottom tab you just folded.
8. Toss the yeti-copter in the air, or drop it from a high area and watch it spin down to the ground.
