

TURKEY TUBE

You'll need: Scissors, glue, crayons, napkin

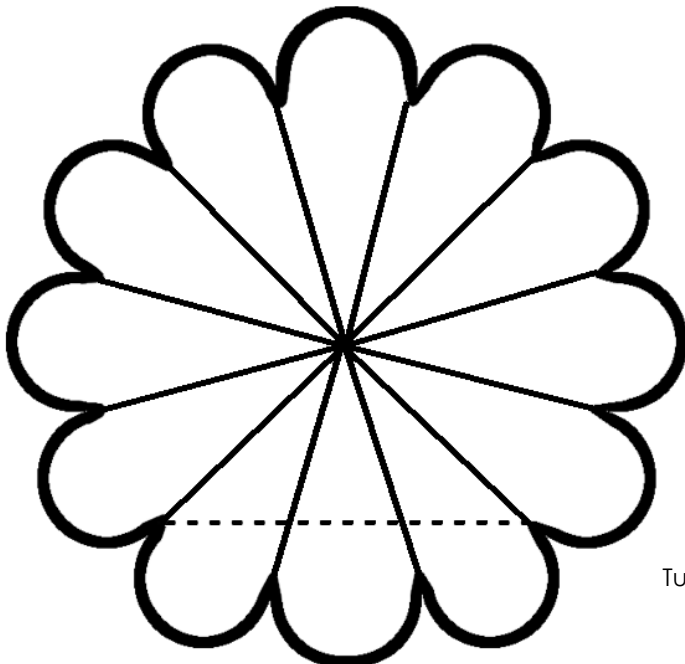

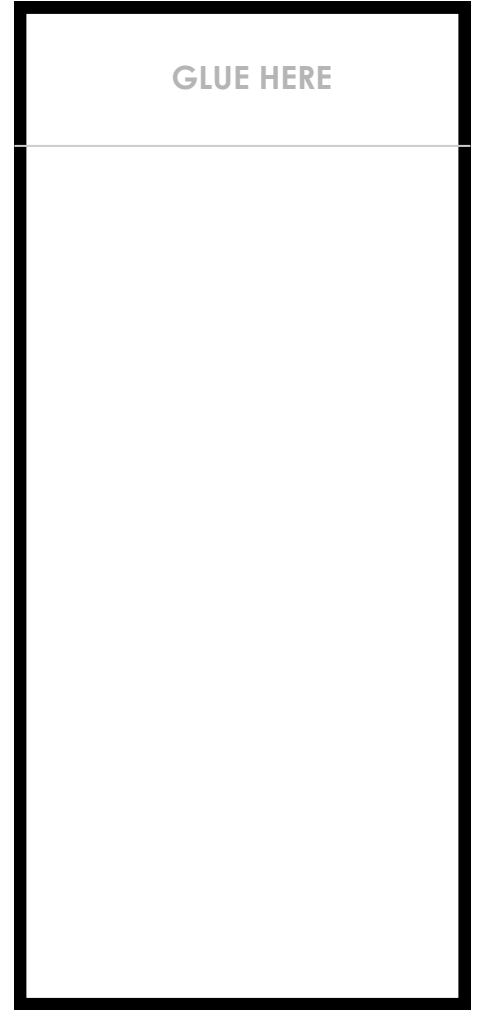

1. Color the turkey body and tail parts.
2. Cut out the turkey body, tail, and tube.
3. Roll the turkey tube into a cylinder shape and glue the tab.
4. Fold the turkey's feet up on the dotted line.
5. Put a dot of glue on the back of the turkey body and attach it to the front of the tube.
6. Fold the tail pieces back on the dotted line. Glue the small tail in front of the big tail.
7. Put a dot of glue on the front of the small tail. Attach it to the back of the tube.
8. Fan fold a napkin and slide it inside of the tube.
