

MY MOUTH PUPPET

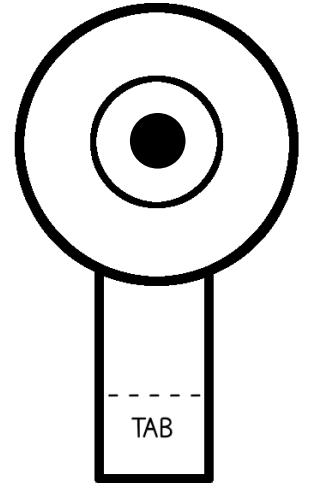

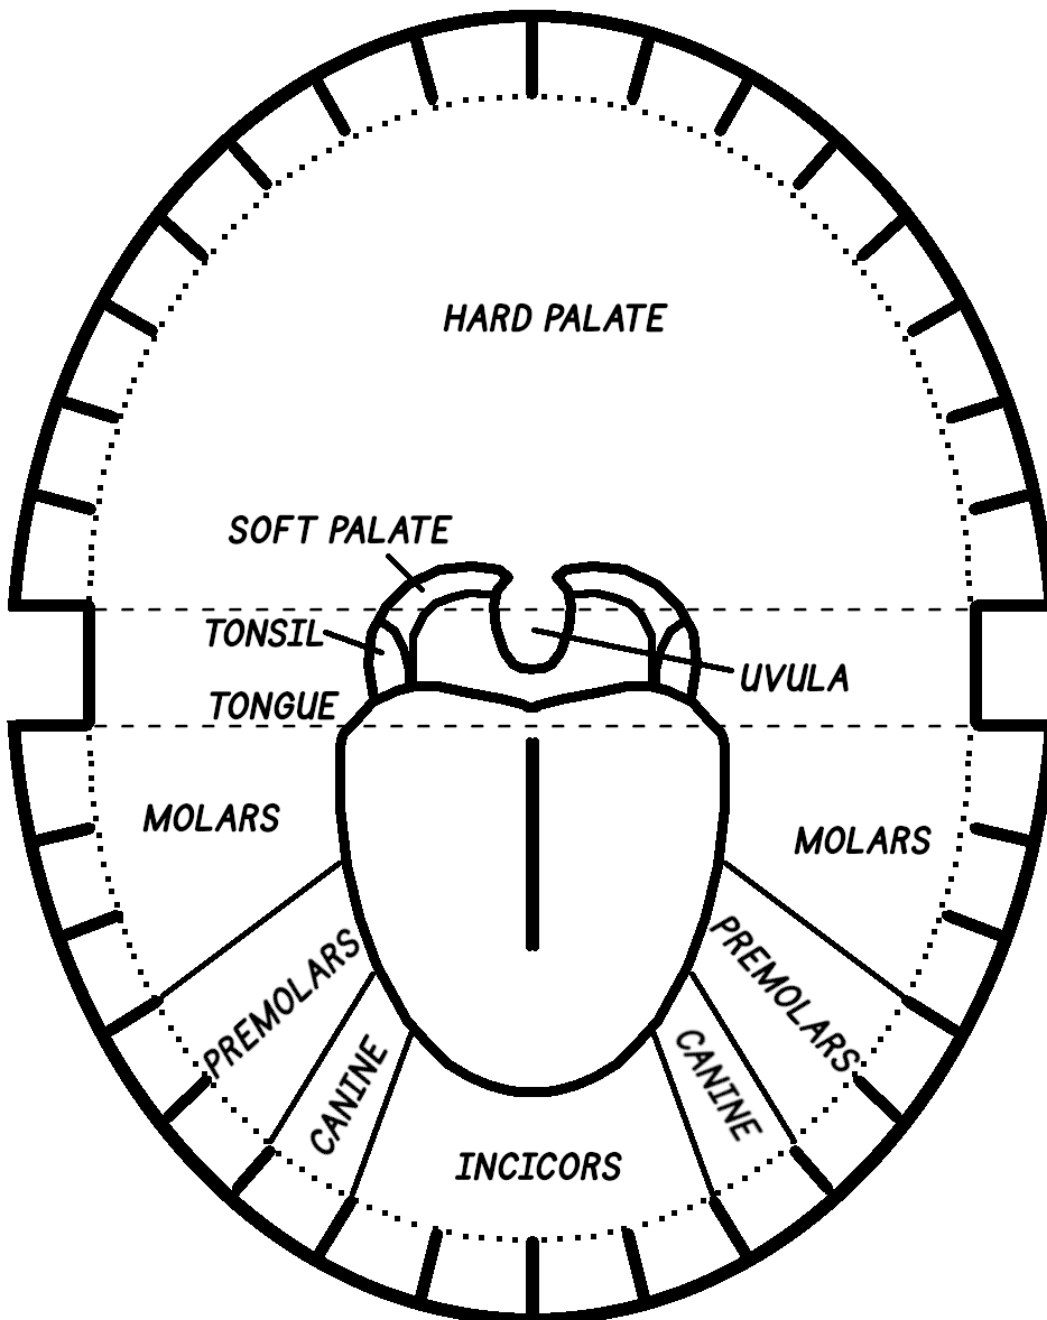

WHAT'S INSIDE A MOUTH?

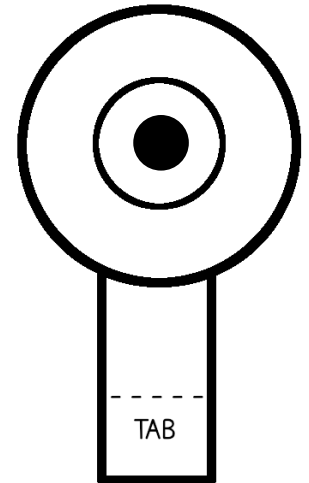

You'll need: Crayons, scissors, glue
(This craft works best when printed on cardstock paper.)

1. Color the mouth oval and cut it out.
2. Fold the mouth forward on the two dotted lines in the center.
3. Cut the slits between each tooth and fold each one forward.
4. Color and cut out the eyeballs and nose. Fold the tabs back and glue them to the top of the mouth.

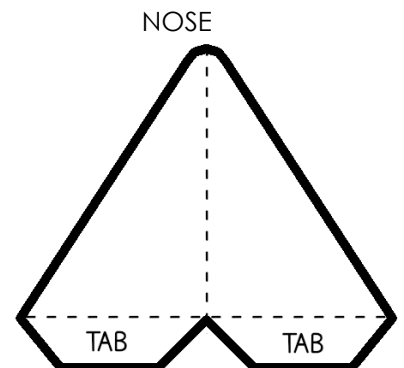

*Learn a fact about dental health. Use your puppet to tell the fact to your classmates.
