

# ZINNIA PENCIL TOPPER

You'll need: Markers, scissors, glue, tape, pencil

1. Color the 3 flowers, the leaf, the flower base, and flower center. Cut out all 6 parts.
2. MAKE THE FLOWER: Stack the 3 flowers on top of one another, in number order. Put a dab of glue on the dot in the middle of each flower. Place the flower center on top. Press to hold. Curl the flower petals to make a 3-dimensional flower.
3. MAKE THE FLOWER BASE: Cut slits in the rectangle to make tabs. Curve the rectangle around a pencil top. (The tabs should be above the eraser.) Tape or glue to hold. Then bend the tabs down at a 90 degree angle to make a flat surface. Glue the tabs to the bottom of the flower.
4. MAKE THE LEAF: Fold the leaf in half. Tape the leaf stem to the pencil.
