

JACK O' LANTERN

You'll need: Scissors, glue stick, crayons

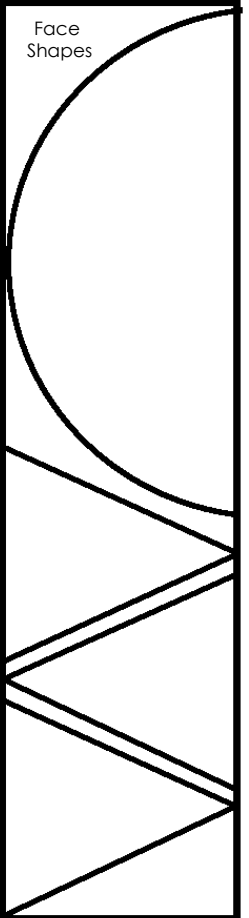

1. Cut out the pumpkin base circle and top circle.
2. Color and cut out the two rectangles below. Cut each rectangle into 4 strips. There are 4 triangle strips and 4 dot strips.
3. Glue a triangle strip to each line on the pumpkin base; line up the triangle on the strip to the triangle on the base.
4. Glue a dot strip between each triangle strip.
5. Now you have a circle with 8 strips coming out from the center. Each strip has an x on the other end. Put a dot of glue on each x, curve each strip up, and place each x on the pumpkin top circle.
6. Color the face shapes & stem. Cut them out.
7. Cut the slits in the stem. Fold the stem tabs up. Curve the stem around and glue the tab. Glue the stem to the top of the pumpkin.
8. Cut out the face shapes (or make your own) and glue them to the front of the pumpkin.
