

FORTUNE FACE

You'll need: Scissors and markers

1. Cut out the main square on the black line.
2. Fold in half (forward) on the dashed line. Unfold. Fold in half again (forward) on the other dashed line. Unfold.
3. Fold back on each dotted line. Flip it over.
4. Fold back each black line. You'll see 4 square pockets with a color word on each. Fold back on the center vertical line. Unfold. Fold back on the horizontal line. Unfold.
5. Slide your left hand pointer finger into the pocket labeled, "red," and your left hand thumb into the pocket labeled, "purple." Slide your right hand finger in blue and thumb into green. You can move your fingers to make it talk.
6. Decorate your fortune face. (It's a puppet and a fortune teller.)
7. Tell a friend's fortune. Have your friend ask you a yes or no question like, "Will I be rich?" Then have your friend pick one of the four colors. You spell the color word while opening the mouth then closing the mouth, and separating the eyes as you say each letter. You'll end with the mouth open or eyes split. Ask your friend to pick a number from the 4 they can see. Open and close as you count. Ask for another number. Open that flap and read the answer to your friend's question.
